OUR BUSINESS

PRODUCTION AND DISTRIBUTION

Our company offers you products that come directly from our Gers production lines, but also from other French production lines or imports.

OUR SECTORS IN THE GERS

FATTENED DUCK

Our Canard du Gers products are the result of our collaboration, established in 2012, with the Vivadour agricultural cooperative. This partnership gives us total control over the entire supply chain :

MEATS

Over the past seven years, we've moved into the butchery meat market by marketing PADs or carcasses: beef, veal, lamb and pork.

In 2023, we started up an ankle business based at the Auch abattoir, in partnership with livestock farmers in the Gers.

We make it a point of honour to offer quality animals that reflect the expertise of our department's livestock farmers.

HONEY

In the spring of 2023, in collaboration with its members, Vivadour launched a beekeeping sector with the primary objective of preserving biodiversity.

The honey is harvested on the land of our Gers farmers and processed in the department.

We are responsible for marketing it.

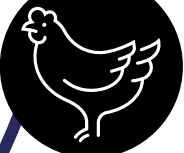

Miel
du Gers
et cest tout !

CHICKEN

We offer a range of free-range chickens from the Gers

The chickens are reared in the open air, respecting traditional methods.

These chickens are fed exclusively with plants, minerals and vitamins, including 80% cereals.
